

**American Shoulder and Elbow Surgeons**  
**Arthroscopic Shoulder and Elbow Surgery: An International Perspective**  
**Felix H. Savoie, III, MD, Program Chair**  
**Jeffrey S. Abrams, MD, President**

**Saturday, October 12, 2013**  
**The Bellagio**  
**Las Vegas, Nevada**

**As of 10/10/13**

7:30 am Welcome and Opening Comments  
*Jeffrey S. Abrams, MD, President*

**SESSION I: SHOULDER INSTABILITY**

*Moderator: James E. Tibone, MD*

- 7:35 am Evaluation of the Unstable Shoulder: What Is Really the Best Way to Examine the Shoulder  
*Edward G. McFarland, MD*
- 7:45 am Arthroscopic Treatment of Traumatic Instability: How to Get the Best Results  
*Jeffrey S. Abrams, MD*
- 7:55 am Back to the Future: Why I Prefer Open Repair of Traumatic Unidirectional Anterior Instability Rather than Arthroscopic Repair  
*Gary M. Gartsman, MD*
- 8:05 am Bone Reconstruction Procedures: When to Do Them, and Which Technique to Choose?  
*T. Bradley Edwards, MD*
- 8:15 am Technique Video 1: Arthroscopic Latarjet: Non Capsular Destroying Technique  
*Felix H. Savoie, III, MD*
- 8:20 am Technique Video 2: Allograft Reconstruction of Bone Defects  
*Anthony A. Romeo, MD*
- 8:25 am Technique Video 3: Arthroscopic Bristow-Bankart: The Belt and Suspenders Operation  
*Pascal Boileau, MD*
- 8:30 am Posterior Instability: Indications and Technique  
*Michael G. Ciccotti, MD*
- 8:40 am MDI of the Shoulder: History and Current Status: What Is It Really, When Is Surgery Indicated and What Is the Best Way To Fix It?  
*Russell F. Warren, MD*
- 8:55 am Summary of the Morning and Questions to the Audience and Speakers  
*Robert T. Burks, MD*

## **SESSION II: SLAP AND BICEPS**

*Moderator: Richard K.N. Ryu, MD*

- 9:20 am                      Physical Exam for Slap Tears: Is There a Reproducible Exam?  
*W. Benjamin Kibler, MD*
- 9:30 am                      SLAP Tears: Who To Fix, When To Do It And How?  
*Joshua S. Dines, MD*
- 9:40 am                      SGHL Lesions and Antero-Superior Instability: Does It Exist and When to  
Fix It If It Does  
*Alessandro Castagna, MD*
- 9:50 am                      Biceps Tenodesis: Should We Just Do This on Everyone and Forget the 3  
Previous Talks? When and How To Do It  
*Anthony A. Romeo, MD*
- 10:00 am                     Questions to the Audience and Speakers: Case Presentations  
Cases: *Osvandre Lech, MD*
- 10:25 – 10:45 am        Break

## **SESSION III: ROTATOR CUFF**

*Moderator: Richard J. Hawkins, MD*

- 10:45 am                     Biology of the Rotator Cuff and How Do Repairs Heal – If They Do: Current  
Concepts  
*Joshua S. Dines, MD*
- 10:55 am                     Technique Video 4: Pasta Repair  
*Robert H. Bell, MD*
- 11:00 am                     Technique Video 5: Single Row RCR  
*Jonathan B. Ticker, MD*
- 11:05 am                     Technique Video 6: Double Row RCR  
*Stephen S. Burkhart, MD*
- 11:10 am                     Revision Rotator Cuff Repair: Indications/Techniques/Factors in Success  
*Xavier A. Duralde, MD*
- 11:20 am                     Analysis of Rotator Cuff Repair Techniques: What Should We Really Be  
Doing?  
*Richard J. Hawkins, MD*
- 11:30 am                     Suprascapular Nerve Release: When Should We Really Be Doing It with  
Rotator Cuff Tears  
*Jon J.P. Warner, MD*
- 11:40 am                     Biologics: Patches and Growth Factors: What Can We Do Now?  
*Joseph P. Iannotti, MD, PhD*
- 11:50 am – 1:30 pm      ***Lunch & Industry Workshops***

## **SESSION IV: MISCELLANEOUS SHOULDER**

*Moderator: Gerald R. Williams, Jr., MD*

- 1:30 pm            Adhesive Capsulitis: Non Op and Op Rx, When to Pull the Trigger on the Stiff Post Op Shoulder, Release/Replace/Other Options?  
*Gerald R. Williams, Jr., MD*
- 1:40 pm            Calcific Tendonitis: What Is It Really and How to Best Treat It  
*David M. Dines, MD*
- 1:50 pm            AC Instability: When and How to Fix, What are the Problems and the Solutions  
*Mark A. Mighell, MD*
- 2:00 pm            Arthroscopy and Glenohumeral Arthritis: What Can We Really Do with The Scope?  
*Evan L. Flatow, MD*
- 2:10 pm            Resurfacing for Glenohumeral Arthritis: Can It Work? What Are the Results? How Does It Compare To Conventional Arthroplasty?  
*Sumant G. Krishnan, MD*
- 2:20 pm            My Thoughts on the Subjects  
*Joseph P. Iannotti, MD, PhD*
- 2:30 pm            Interactive Discussion with the Audience  
*W.Z. (Buz) Burkhead, Jr., MD*
- 2:50 – 3:10 pm    Break

## **SESSION V: ELBOW**

*Moderator: Felix H. Savoie, III, MD*

- 3:10 pm            Basics of Elbow Arthroscopy  
*Larry D. Field, MD*
- 3:20 pm            Technique Video 7: Lateral Epicondylitis  
*Champ L. Baker, Jr., MD*
- 3:25 pm            Technique Video 8: Arthroscopic RH Excision  
*Kevin D. Plancher, MD*
- 3:30 pm            Technique Video 9: Open Radial Head Replacement  
*Graham J.W. King, MD*
- 3:35 pm            Arthroscopy for Arthritis  
*Matthew L. Ramsey, MD*
- 3:45 pm            Post Traumatic Arthrofibrosis: Tips on How to Treat, When to Scope and When to Open  
*Felix H. Savoie, III, MD*

- 3:55 pm Valgus Instability in Throwers: PRP vs. Repair vs. Reconstruction: What and When?  
*Joshua S. Dines, MD*
- 4:10 pm Elbow Arthroscopy for Fractures: Tips on How to Make It Work and When to Try It?  
*Michael Hausman, MD*
- 4:20 pm Elbow Arthroscopy: The Future – Instability Repair, Triceps Repair, Resurfacing  
*Felix H. Savoie, III, MD*
- 4:30 pm Elbow Arthroscopy: Complications of Elbow Arthroscopy and What to Look For  
*Ken Yamaguchi, MD*
- 4:40 pm Special Tips on How to Keep Arthroscopy Safe: Words of Wisdom for All of Us  
*Matthew L. Ramsey, MD*
- 4:50 pm Panel Discussion with the Audience: Case Presentation  
*Felix H. Savoie, III, MD*
- 5:10 pm Adjourn and Closing Remarks  
*Jeffrey S. Abrams, MD*
- 5:30 – 7:30 pm ***Reception***  
Special Lecture:  
The Value of What We Do for Our Patients – How to Preserve, Protect and Improve  
*Jon J.P. Warner, MD, and Gerald R. Williams, Jr., MD*
