

ASES FELLOWS' DAY AT SDSI

AMERICAN SHOULDER AND ELBOW SURGEONS FELLOWS' DAY AT SDSI FRIDAY, JUNE 16TH, 2023 * 2:00 P.M. – 7:00 P.M.

Michael H. Amini, MD, Fellows' Symposium Co-Chair
Justin W. Griffin, MD, Fellows' Symposium Co-Chair

Andrew Sheean, MD, Ex-Officio

Eric R. Wagner, MD, Ex-Officio

Peter N. Chalmers, MD, Ex-Officio

Welcome

Moderator: *Michael H. Amini, MD*

2:00 pm **Welcome**

2:05 pm ASES Membership: Categories and Advancement
Michael H. Amini, MD, ASES Membership Committee

Keynote Speaker #1: **Richard J. Hawkins, MD, FRSC**

2:10 pm My Journey

Paper Session #1

Moderators: *Peter N. Chalmers, MD and Anthony A. Romeo, MD*

2:20 pm Paper #1: Predictors of Poor and Excellent Outcomes Following Reverse Shoulder Arthroplasty for Glenohumeral Osteoarthritis with Intact Rotator Cuff
Abdulaziz Ahmed, MD

2:25 pm Paper #2: High failure rate of two-stage revision for the infected total elbow arthroplasty: A single institution's experience
Corey Schiffman, MD

2:30 pm Paper #3: Glenoid Based Reference System to Differentiate Shoulder Pathologies on Plain Radiographs
Austin Smith, MD

2:35 pm Q/A

2:45 pm Pearls of wisdom – Anthony A. Romeo, MD

Symposium I: **I'm Done With Fellowship – Now What? The Business of Starting a Practice**

Moderator: *Anand M. Murthi, MD*

Panelists: *Brian R. Waterman, MD, Grant E. Garrigues, MD, Julia Lee, MD, Rachel M. Frank, MD*

2:50 pm Panel Discussion

3:20 pm Q/A

Paper Session #2

Moderators: *Andrew Sheean, MD and Mark H. Getelman, MD*

3:30 pm Paper #4: Pain Generation in the Contralateral Asymptomatic Shoulder in Patients with a Painful Cuff Tear: A Prospective, Longitudinal Cohort Study
Jeffrey Olson, MD

3:35 pm Paper #5: Inferior Craniocaudal Hill-Sachs Extension is Associated with Recurrent Instability Following Primary Arthroscopic Bankart Repair
Ting Cong, MD

3:40 pm Paper #6: The Relationship Between Patient Resilience and Mental Health Status In Patients Undergoing Anatomic Shoulder Arthroplasty
James Levins, MD

3:45 pm Q/A

3:55 pm Pearls of wisdom – Mark H. Getelman, MD

Keynote Speaker #2: **Steven S. Burkhart, MD**

4:00 pm Innovation in Shoulder Surgery

Break

4:10-4:40 pm Visit posters and sponsors

Symposium II: **Fractures: How to Handle the Cases My Partners will Save Just For Me**

Moderators: *Michael H. Amini, MD and Justin W. Griffin, MD*

Panel: *Oke A. Anakwenze, MD, MBA, Emilie V. Cheung, MD, Caroline M. Chebli, MD, Michael J. O'Brien, MD*

4:40 pm Case 1

4:55 pm Case 2

Paper Session 3

Moderators: Eric R. Wagner, MD and Eric T. Ricchetti, MD

- 5:10 pm Paper #7: Reverse Shoulder Arthroplasty With a Modular Segmental Metallic “Tumor” Prosthesis For Severe Proximal Humerus Bone Loss
Joseph labrum, MD
- 5:15 pm Paper #8: How Anatomic Should Anatomic Total Shoulder Arthroplasty Be?
Ryan Hoffman, MD
- 5:20 pm Paper #9: No Difference in 10-Year Survivorship of Total Shoulder Arthroplasty Versus Hemiarthroplasty for Avascular Necrosis of the Humeral Head
Joshua Thomas, MD
- 5:25 pm Paper #10: Up To 8 Mm Of Glenoid-Sided Lateralization Does Not Increase The Risk Of Acromial Or Scapular Spine Stress Fracture Following Reverse Shoulder Arthroplasty With A 135° Humeral Component
Theresa Pak, MD
- 5:30 pm Q/A
- 5:40 pm Pearls of wisdom – Eric T. Ricchetti, MD

Keynote Speaker #3: Joaquin Sanchez-Sotelo, MD, PhD

5:45 pm Life After Fellowship

Closing Remarks/Adjourn to Fellows' Lounge

Justin W. Griffin, MD and Michael H. Amini, MD

6:00-7:00 pm: Reception

6:15 pm Presentation of Hawkins Award for Best Poster Presentation
Presentation of Cofield Award for Best Podium Presentation

Poster Presentations by Shoulder and Elbow Fellows

Yousif Atwan, MD

Outcomes of the Latitude EV Total Elbow Arthroplasty for Distal Humerus Non-Union

Benjamin J. Cooper, MD

Judicious use of corticosteroid injections prior to shoulder arthroplasty does not compromise outcomes at a minimum of 2-years following surgery.

Caleb Michael Davis, MD

Do Preoperative Scapular Fractures Affect Outcomes after Reverse Shoulder Arthroplasty?

Ross Gerald Doehrmann, DO

Short-Term Outcomes Following Minimal Humeral Preparation A Using Self-Broaching, Stemless Anatomic Total Shoulder Arthroplasty

Kristian Efremov, MD

Incidence of Primary Anatomic and Reverse Total Shoulder Arthroplasty in Patients Less than 50 Years of Age & High Early Revision Risk

Justin M. Givens, MD

Periprosthetic Infection Risk Factors for Recurrence in Revision Shoulder Arthroplasty

Jeffrey "Ryan" R. Hill, MD

The Incidence and Risk Factors for Re-Operation and Revision Following Total Elbow Arthroplasty with an Anatomic Convertible Prosthesis

Ryan Hoffman, MD

Radiographic Variation of The Humeral Head Anatomy in Shoulders Without Glenohumeral Osteoarthritis. How Perfect is The Humeral Circle?

Ryan Hoffman, MD

Pediatric Rotator Cuff Repairs: An Analysis of Epidemiology, Concomitant Procedures, and Complications

Michael G. James, MD

Reversing Pseudoparesis Secondary to Massive Irreparable Rotator Cuff Tear: Superior Capsular Reconstruction or Reverse Total Shoulder Arthroplasty?

Michael G. James, MD

Reverse total shoulder arthroplasty for primary osteoarthritis with preoperative restricted forward elevation demonstrates similar outcomes to anatomical total shoulder arthroplasty.

Richard Michael Michelin, DO

Primary and revision reverse total shoulder arthroplasty using a patient-matched glenoid implant for severe glenoid bone deficiency.

Liane Miller, MD

Preoperative MRI Underestimates Shoulder Labral Injuries Compared with Diagnostic Arthroscopy

Liane Miller, MD

Clinical presentation and outcomes of 270- and 360-degree labral tears

Theresa Pak, DO

Arthroscopic Repair of Massive Rotator Cuff Tears Leads to Functional Improvement in the Majority of Cases at Mid-Term Follow-up Despite Modest Rate of Healing

Zachary S. Rogozinski, MD

No Clinical Difference in Outcomes Between Inlay and Onlay Arthroscopic Biceps Tenodesis Techniques during Rotator Cuff Repair

Cassandra Sanko, MD

Humeral Stem Loosening: Is it always PJI?

Gregory Sprowls, MD

Neighborhood Socioeconomic Disadvantages Influence Outcomes Following Rotator Cuff Repair

Taylor Elizabeth Swansen, MD

Radiographic measurements in reverse total shoulder arthroplasty: accuracy of preoperative planning
